

**AGPAL**  
Program and  
Service Finder

## AgPal – an easy-to-use program and service finder for your agricultural needs

Navigating information online on the numerous agricultural programs and services in Canada can be overwhelming. AgPal is a web-based discovery service that can help you find information on federal, provincial and territorial programs and services for your agricultural needs.

AgPal gathers agricultural information from government and agricultural organizations across the country in a convenient one-stop shop. AgPal is:

- **Fast** – In less than two minutes, AgPal can find relevant information specific to your needs from over 3,000 programs and services.
- **Free** – The web-based discovery service is available anytime, anywhere at no cost.
- **Easy to use** – You can quickly and easily filter information to broaden or narrow search results by region, client type, commodity, topic, service or category.
- **Comprehensive** – Discover the wide range of programs, services, market intelligence and research AgPal offers on topics such as: financial support; environment and sustainability; young farmers and new entrants; business plans; equipment and machinery; human resources; climate change; mental health resources; and so much more!

Try it today and find programs and services for your farm or agri-business.
